## Bariatric Palma – built for comfort

The Bariatric Palma is engineered for long-lasting durability. The stylish, ergonomic design has a more comfortable opening and a luxurious contoured sitting surface that is roomier than any other toilet seat on the market offering a new era of stability, comfort and safety.

The standard Palma Vita shower toilet is capable to withstanding up to 30 stone: 25% more than even strengthened versions of similar products. With a bariatric (Big John) seat, it can accommodate up to 362kg/57 stone – more than twice the weight of comparable units.

## bariatric palma features

- Clos-o-Mat bariatric Palma featuring the Big John seat provide increased maximum weight to:
- 19" wide, contoured seat
- Seat depth: 60mm
- Made from high-impact ABS that is both stain and chemical resistant
- Durable, stainless steel hinges
- Non-Slip bumpers
