

# CPD Training by Easibathe & Easiaccess

We host a number of adaptation training events throughout the year which can be tailored to suit your own team requirements. Using our external (ramping) and internal (bathing) product demonstration areas our expert staff will talk you through specification, installation and legislation. Any training requirements you have will be catered for in your very own bespoke training session.

Our dedicated training room is fully equipped with the latest audio-visual presentation technology. As well as being used as part of an Easibathe CPD event, this room is also available free of charge for you to use for your own team meetings. We will provide refreshments during your breaks and take the opportunity to update you on any product or service initiatives.

If you want us to come to you then we will! Illustrated here is our mobile ramping demonstration vehicle which we take to external CPD events. This reduces time out of the office for teams who are not able to travel to CPD events out of their geographical area. This can be organised in conjunction with a bathing adaptation demonstration also.

If you and your team are interested in attending a CPD training event at our offices or would like to arrange for our team to come to you, please contact Tracey Barker on 0800 321 7430.
